

Sigvard Bratlie

Data Scientist

M.Sc. student in Data Science at NMBU with 4 years of project management experience in commercial real estate. Currently researching agentic AI for the legal sector.

Education

Data Science (M.Sc.) | NMBU

Aug 2024 - Present (Expected June 2026)

- Researching context preservation in multi-turn LLM conversations for legal case management at Bahr AS for my master thesis — building an agent that maintains structured case state across extended conversations, with RAG on Norwegian law, automated document analysis, and multi-LLM support. Evaluating whether explicit state management improves accuracy over baseline models as conversation length increases.
- Built a convolutional neural network (object detection model) for Rumex identification in drone imagery. Also worked with segmentation and classical image processing techniques.
- Built an interactive dashboard web-page analyzing Norwegian electricity production/consumption vs. historical weather data, with time-series decomposition, forecasting, and outlier detection.
- Developed an end-to-end ETL pipeline scraping Finn.no, enriching with public registry data (Geonorge, Statens Vegvesen, Kartverket), and training pricing models with several different types of models on GCP.
- Built AI-valuation — an AI valuation platform where users chat with LLM agents for real estate and vehicle valuations, deployed on Google Cloud Run.
- Built an oil spill diffusion simulator with mesh-grid modeling and auto-generated MP4 visualizations.
- Coursework includes statistical theory (Bayesian/frequentist, MLE, multivariate distributions), optimization (gradient descent, Newton's method, KKT, simplex),

deep learning, and algorithm design.

Economics & Business (Year Study) | BI Norwegian Business School

Aug 2021 – June 2022 (Completed parallel to full-time position at Newsec)

- Completed 60 ECTS credits with a focus on business economics, financial accounting, and marketing management.

Engineering (B.Sc.) | NTNU

Aug 2017 - Jun 2020

- B.Sc. in Structural Engineering with focus on construction management, structural design, and regulatory frameworks.
- Foundation in project planning, contract management, and navigating building regulations and public approval processes.

EXPERIENCE

Project Manager | Newsec

Aug 2020 – Oct 2024

- Led end-to-end multi-million NOK construction and tenant fit-out projects, coordinating 20–30 stakeholders (engineers, contractors, architects, clients, municipalities) across residential conversions, commercial rehabilitations, and public developments in central Oslo.
- Delivered projects for major institutional and international clients (OBOS, Pareto Securities, Clarksons Platou, SBB Norden, Selvaag), covering new builds and tenant adaptations.
- Conducted technical due diligence for office, retail, industrial, and residential transactions, delivering integrated buy- and sell-side assessments.
- Managed complete procurement cycles: tenders, bid evaluation, contract negotiation/administration, including public sector procedures and regulatory approvals.

Project Manager | Independent Consultant

Oct 2024 - Present(Parallel to full-time master studies)

- Providing technical advisory and project management for property development projects upon direct request from former clients and partners.
- Focusing on project execution and technical management, transitioning from previous full-time roles into targeted consultancy.

 Skills

Machine Learning • ANN (PyTorch & TensorFlow) • Transformers (HuggingFace) • ML (Scikit Learn, XGBoost, ++) • Agents (Langchain/langgraph) • Data handling (Pandas, NumPy, Spark) • Plotting (Matplotlib, Seaborn, Plotly) • Computer vision (OpenCV, YOLO)	Cloud Computing • GCP, Azure & AWS • Data warehouse (Big Query, Snowflake) • CI/CD tools (Cloud Build, etc.) • Serverless computing (Cloud Run) • Docker • VM and Kubernetes • NoSQL DB (MongoDB, Firestore) • ++ (Secrets, IAM handling, etc.)	Other Tools/Skills & Professional • FastAPI • Git • Streamlit • Dashboards (PowerBI, Looker) • Figma • Project Management • Client Relations • Business Acumen • Reporting & Presentation
