

Sigvard Bratlie

Data Analyst

M.Sc. student in Data Science at NMBU with 4 years of project management experience in commercial real estate. Combines strong business acumen with technical expertise in Python, SQL, and BI tools.

Education

Data Science (M.Sc.) | NMBU

Aug 2024 – Expected June 2026

- Master's thesis at Bahr AS: building an AI agent for legal case management with RAG on Norwegian law, automated document analysis, and structured state management across extended conversations.
- Built an interactive dashboard analyzing Norwegian electricity production/consumption against historical weather data, including time-series decomposition, forecasting, and outlier detection.
- Built an end-to-end ETL pipeline with scraping, data cleaning, enrichment from public registries (Geonorge, Statens Vegvesen, Kartverket), and pricing models — deployed on GCP.
- Coursework: statistical theory (Bayesian/frequentist, MLE), optimization, deep learning, algorithm design.

Economics & Business (Year Study) | BI Norwegian Business School

Aug 2021 – June 2022

- 60 ECTS credits in business economics, financial accounting, and marketing — completed alongside full-time employment.

Engineering (B.Sc.) | NTNU

Aug 2017 – June 2020

- B.Sc. in Structural Engineering with focus on project management, structural design, and contract administration.

Experience

Data Analysis & Project Work | NMBU (Academic Projects)

Aug 2024 – Present

- Analyzed and visualized large datasets from public sources using Python (Pandas, Plotly, Seaborn).
- Developed dashboards and reports communicating insights to non-technical stakeholders.
- Validated data quality, documented assumptions, and built reusable analysis pipelines.

Project Manager | Newsec

Aug 2020 – Oct 2024

- Led complex projects with 20–30 stakeholders; structured large volumes of project data and delivered decision support to institutional clients (OBOS, Pareto, Selvaag, SBB Norden).
- Conducted technical due diligence for office, retail, and industrial properties — analyzing condition, risk, and value, and presenting findings to decision-makers.
- Managed full procurement cycles including tender analysis, contract negotiation, and budget tracking.

Project Manager | Independent Consultant

Oct 2024 – Present (parallel to full-time master's studies)

- Technical advisory and project management for property development projects on direct request from former clients and partners.

Skills

Analysis & Data	Visualization & BI	Other Tools
Python (Pandas, NumPy)	Power BI	Git
SQL	Looker	FastAPI
Statistical Analysis	Plotly / Seaborn	Docker
ETL & Data Cleaning	Matplotlib	GCP / Azure / AWS
Scikit-learn / XGBoost	Streamlit	Figma

Professional: Project Management · Business Acumen · Presentation & Communication · Client Relations
